REGINA RIPPLES

D. H. McDonald, M.L.A., Addresses the Dairy Association—The Legislative Assembly.

Hon. Mr. Sifton to be Tendered a Dinner—Dr. Brett Takes His Seat.

Regina, Nov. 16.—D. H. McDonald, M.L.A., addressed the Dairy Association which met here recently. He advocated the affiliation of the various creamery companies in order to secure a more intelligent way of conducting business. It was decided to separate the Territories into an east and west district and hold meetings in each. Anyone desiring the pamphlet containing information regarding past meetings can have same by sending to W. Trant, secretary of the association, Regina. Mr. L. G. Bell represented Qu'Appelle, Messrs. Angus Mackay and William Dickson, Indian Head, at the meeting. A circular was issued by the secretary to-day notifying members and all interested of the changes, and inviting members of agricultural societies and any others interested in the question, to attend the meetings. The delegates of the association are informed that it has been decided to pay the necessary transport expenses of delegates attending these meetings.

Messrs. Bulyea and McDonald have been appointed a sub-committee of the municipal committe to go over the Municipal Ordinance, and report to the municipal committee as heard. The sub-committee heard Mr. Vicars' recommendations to-day.

The house in committee of the whole went into the Liquor License ordinance, also the Ordinance respecting Justices of the Peace, and Hire Receipts, and Conditional Sales of Goods; an ordinance respecting Public Service of the Territories.

Mr. Sifton will be here Thursday, going east Friday night. The Speaker will tender him a dinner, but it is not known whether he will accept.

Dr. Brett took his seat in the assembly for the first time to-day.

Kicked by a Horse.

Willie, the son of Truman Holliday, near this place, has met with a serious accident by which he will be badly disfigured and which came near proving fatal. It seems on returning from school he was putting up his pony for the night, and in going among him the animal kicked him in the face. Medical attendance was procured and the sufferer is now doing as well as possible.

Mrs. Strong Dead.

The very many friends of Mrs. R. Dundas Strong, wife of the late R. D. Strong, Esq., Crown Prosecutor, will regret to hear of her death at Brandon, of Bright's disease, on the 16 h inst. The remains were brought here for interment beside her husband in Qu'Appelle cemetery, the funeral taking place this morning from the Church of England.

Chas. Gatty Dead.

Chas. Gatty, who was sent from here to the hospital at Winnipeg, suffering from frostbites and a wounded throat, the result of a spree, is dead. Gangrene set in and it was thought advisable to amputate both feet, but before the operation could be attempted death relieved the sufferer. His death is much regretted here by all who knew him.

Fatal Runaway.

Wolseley, Assa., Nov. 14.—A sad accident occurred here on Friday evening. Mr. Jas. Fleming, after becoming intoxicated, was put into his democrat behind a team of colts. The ponies ran away and Mr. Fleming was thrown out, and sustained injuries from which he died on Sunday morning. Dr. Eliot, the coroner, is holding an inquest on the body before the following jury: E. A. Fanbury, John Benson, A. J. McPhail, V. D. Ferguson, Geo. Balfour and J. T. Middlemiss.

Wolseley, Assa., Nov. 16.—The following is the verdict rendered by the coroner's jury re the death of Mr. Jas. Fleming, Sr.:

"We, the coroner's jury, find that the deceased came to his death from a wound received by being thrown from his rig while in a state of intoxication; and we further find that Jas. Bailey and Stewart Mundell contributed to his death by supplying liquor to deceased, while intoxicated, and for allowing deceased to be removed from the premises while in such a condition; and we further find that Chas. Morgan and William Armstrong are responsible, to some extent, for starting deceased for home while in such a state."

Burglary at Lumsden.

The safe of McNeice & Burrows of Lumsden, was burglarized last week and $6 0 belonging to Bready, Love & Tyson, grain buyers taken. The matter is being kept pretty quiet. It is said a woman is suspected.

—The thermometer registered twenty-one degrees below zero here on Monday morning last.

If a woman walked bare-footed on the sharp edge of a sword, she would not undergo one-tenth of the agony daily borne by thousands of women without complaint. They suffer greater misery and pain than could be inflicted by all the professional torturers that the world ever knew. Day and night they suffer from headaches, dragging down and burning sensations, pains in the sides and back, hot and cold flushes, nervous and trembling sensations and physical lassitude and mental despondency. The whole body is tortured with pain and the entire nervous system is racked. If they consult the average obscure physician, he will attribute their bad feelings to stomach, liver, kidney, heart or nervous trouble. If, by accident, he hits upon the right cause, he will insist upon the disgusting examinations and local treatment so embarrassing to a sensitive, modest woman.

The real trouble is weakness or disease of the delicate and important organs that bear the burdens of maternity. There is no necessity for examinations or local treatment. Dr. Pierce's Favorite Prescription cures all disorders of this nature in the privacy of the home. It acts directly on the sensitive organs concerned, making them strong and well. It allays inflammation, heals ulceration, soothes pain and tones and builds up the nerves. It stops exhausting drains. It banishes the discomforts of the expectant months, and makes baby's coming easy and almost painless. It restores the beauty and vivacity lost through long months or years of pain and suffering. Thousands of women have testified to its marvelous merits. At all medicine stores. Avoid substitutes.

To cover customs and mailing *only*, send 21 one-cent stamps for paper-covered copy, or 50 for cloth bound copy, of Dr. Pierce's Common Sense Medical Adviser. Address, Dr. R. V. Pierce, Buffalo, N. Y.

THURSDAY, NOV. 18, 1897.

AN IMPORTANT RESOLUTION.

The resolution passed by the Northwest assembly on Thursday urging the Dominion government to undertake immediately the opening of the overland route from Edmonton to the Yukon gold fields, demands the earnest support of all those interested in the prosperity of Manitoba and the Territories. Indeed it should receive the support of all those who are interested in Canada deriving the greatest possible amount of benefit from her northern gold fields. The route is the shortest route to the Klondike. It is the only practicable all Canadian route. It is the route by which the greatest amount of the Yukon trade can be secured for Canadian manufacturers, merchants and agriculturists. It will open to development large areas of gold bearing territory of equal richness with the Klondike and much nearer to the settled portions of Canada. It also will open to settlement large tracts of farming and ranching country. The government has shamefully neglected this route in order to devote attention to the coast routes, which are more difficult and the development of which will give the American coast cities greater facilities for depriving Canada of this trade than they now en-joy. The amount of money the opening of this route will put in circulation among the farmers and ranchers of the Canadian Northwest will be enormous. The direct benefit it will prove to the mercantile interests of Winnipeg, Calgary and Edmonton will be immense, while the indirect benefits of it will be felt by the merchants of every town in the Northwest. The eastern manufacturers will share fully in the profits of this increased trade. The route is not an expensive one to develop. In its present state 75 men started over it this fall, and 125 are making preparations at Edmonton to follow them. In the spring large numbers of others will flock to Edmonton to proceed that way to the gold fields. The rush will be immensely greater if the Dominion government complies with the Territorial assembly's memorial.

TWO PICTURES

One Rich, Bright and Cheerful; the Other Gloomy, Dark and Muddy.

Forty-five samples of colored cloth are shown on the Diamond Dye sample card, from which can be produced over one hundred good, solid colors. Every dyed sample is full rich, brilliant and fast, showing just what any woman of ordinary intelligence can do with the Diamond Dyes. This is picture number one.

The common imitation dyes, and dyes composed of soap grease as a principal ingredient, show but a dozen or fifteen colors, and so imperfect in color tone and power that the small collection looks gloomy, despondent and sickly to any individual with a taste for the beautiful. This is picture number two.

To those in doubt we say, send your address to Wells & Richardson Co., Montreal, for a color card of Diamond Dyes; it will be sent free.

The Diamond Dyes being the easiest to dye with give all the grand results in beauty and fastness of color that the heart can possibly desire.

The Future of Wheat.

If facts are to be the basis of the price of wheat, all that is needed to form a prognostication is the newer gerding the probable supply and demand. All statistical evidence continues to show that before the end of the current cereal year wheat will be scarcer and in freer demand throughout the world than for some years. The statistics show that wheat reserves are being rapidly depleted and all wheat importing countries will need to buy many millions of bushels more this year than in any recent year. The increase of 50,000,000 or even 100,000,000 bushel in the American crop will not offset the deficiency sufficient to depress prices. As far as America is concerned it has just the opposite tendency as it causes a heavy foreign demand that stiffens prices. Foreigners have been buying American wheat at the rate of about 5,400,000 bushels a week, and Europe will require all the American supplies. These are the facts that will really determine the price of wheat. The results of the Argentine, or the condition of the Australian, crop will be used by speculators to influence the market, but anything that may happen to either crop will make no material difference to the price. The relative conditions of demand and supply are beyond any material effects from such an insignificant quantity as 20,000,000 bushels, which is the highest estimate of the most ardent bear regarding the possible export from Argentine. The actual conditions must ultimately maintain wheat at a high price, whatever may happen temporarily through such minor influences as the closing of navigation, and when the relatively small supplies are considered in the face of such exceptional demands the only wonder is, not that wheat is so high, but that it is not higher.—*Price Current.*

Sir Oliver Mowat will be sworn in as Lieut.-Gov. of Ontario to-day.

Strong Letters From Reliable People.

Prove the Worth of Paine's Celery Compound.

The Public Demand for the Great Medicine Fast Increasing.

The proprietors of Paine's Celery Compound have never given to the press of the country any misleading statements, and have never exaggerated either the virtue of their wonderful remedy or the astonishing character of the testimonials it has received.

Paine's Celery Compound, the greatest and most marvellous of all blood purifiers and restorers of nerve force and power, and which has a greater public demand than all other combined remedies, has been a blessing to thousands of homes in the Dominion of Canada. This medicine that makes people well receives monthly scores of letters of praise from men and women rescued from disease and death. Every month of the year hundreds are restored to new life, but many being diffident in nature, and not wishing to be recognized by the public, refrain from writing for the press.

Paine's Celery Compound being a guaranteed medicine, the public have faith in it. The cures effected for those who in the past were burdened with rheumatism, neuralgia, kidney disease, liver trouble, dyspepsia, heart troubles and blood diseases, are in many cases truly wonderful. Success after the doctors fail is the great boast of the world's popular medicine, Paine's Celery Compound.

Mrs. A. Perry, Port Maitland, writes as follows.

"For two years my system was all run down, and I suffered more than I can describe from nervous prostration and insomnia. At times I almost lost my reason from severe pain at base of the brain. My husband advised me to try Paine's Celery Compound, which I did, and the effects were wonderful. I soon began to sleep well; the pain left my head; my whole system was strengthened, and I am now enjoying very good health.

'I would cheerfully recommend Paine's Celery Compound to any one suffering from like troubles. You have my best wishes for the future success of your excellent remedy."

HER TITIAN HAIR.

In warm soft waves of gold and brown,
Above her forehead saintly fair,
Ripples in sweet abandon down
Her Titian hair.

Methinks that little head of hers
A Tuscan artist well might dare;
And worthy of a better verse
Her Titian hair.

Were I a painter I would frame
For coming time one canvas rare,
On which should glow, above my name,
Her Titian hair.

Or, better name and fame to miss
That find their semblance otherwhere—
Were I her lover I would kiss
Her Titian hair.

STRONG WORDS

The Countess of Desart on Books, Divided Skirts and Women.

Most women—and I am afraid a good many men, too—imagine that book learning is synonymous with education. It never strikes them that if it were so our bookworms would be the great leaders of humanity. They see games playing a great part in boys schools, and they immediately wish these games introduced into gals' schools. They fancy that if only the girl could be taught as the boy is taught, she would become, in spite of her dress, a man. This sounds a reductio ad absurdum, but is it not, in plain language to be understanded of the people, the meaning of the clamor for girls' cricket and football, for a university education for girls, for the opening of all careers and all professions to girls? Because boys come and go alone, and it is good for them to learn to fend for themselves, therefore chaperons for girls should be abolished. Because men, in knickerbockers, can travel ever so much farther without fatigue on their bicycles than women, therefore, woman should be made to wear divided skirts, and then they will be able to go as far and as fast as men.

Could anything be more unconnected, more illogical, than these sets of propositions? Yet they are warmly and strenuously advocated by women who take themselves most seriously.

But if you wish to realize fully the maze in which the "advanced" woman has lost herself, take her views about marriage. Listen to her argument that because, according to her ideas, the "bargain," as she will probably call it, has been too much in favor of the bridegroom, therefore, in future it should be a great deal too much in favor of the bride. The contract on which the sanctity of the family and the welfare of the rising generation mainly depend, she thinks should be one to be repudiated at will, for any caprice, any whim. Above all, her old sphere, the home, is far too lowly, too humble for anyone with the slightest talent to be wasted on. It should be looked upon as the last resource, the final refuge of the poor-spirited, the mentally destitute.

The Late Jean Ingelow.

Miss Jean Ingelow, the distinguished poet and novelist, who died in London on the 20th July, 1897, was in her 77th year.

Miss Ingelow was born at Boston, Lincolnshire, in 1820, and became famous as the author of "Poems by Jean Ingelow," published in 1863, which have since passed through twenty-five editions. In 1867 she published "A Story of Doom," and in 1885 a further volume of poems. She has written several prose volumes, "Stories Told to a Child," being perhaps the best known, and a number of novels, which have had very wide circulation, the best known

MISS JEAN INGELOW.

among them being "Fated to be Free," which appeared in 1875, and "Off the Skelligs," which appeared in 1878. For many years she has resided in London.

Weights of Royal Women.

The weights of the crowned ladies of Europe have been made the subject of a recent article in a Paris daily. This asserts that Queen Victoria weighed 175 pounds at Nice last winter. The Queen of Italy tips the scales at 150 pounds and Queen Regent Christina of Spain at 150, while Isabella, the ex-Queen of Spain, has more than 200 pounds of avoirdupois to carry around with her. Less than half of that is the regular weight of Empress Elizabeth of Austria, who by much exercise and careful diet has kept her weight below a hundred pounds. The Empress of Germany weighs 145, the young Czarina only 124 pounds and the aged Queen of Denmark has 142 pounds to her credit.

'Tis the Last Rose of Summer.

Mrs. Amelia Kohler died the other day at Mt. Vernon. She was ninety-two years old. Years ago she lived in London, and was an intimate friend of the poet Moore's sister. One day in his

garden she picked a rose and said to Moore: "'Tis the last rose of summer; why not write about it, Mr. Moore?' Moore's famous poem was the result of her suggestion.

CURES THE WORLD

Rheumatism Banished Like Magic.

A Marvellous Statement—Relief from One Dose.

Mr. E. W. Sherman, proprietor of the Sherman House, Morrisburg, Ont is known by thousands of Canadians, hence the following statement from Mr. Sherman will be read with great interest and pleasure. "I have been cured of rheumatism of ten years' standing in three days. One bottle of SOUTH AMERICAN RHEUMATIC CURE performed this most remarkable cure. The effects of the first dose of South American Rheumatic Cure were truly wonderful. I have only taken one bottle of the remedy, and now haven't any sign of rheumatism in my system. It did me more good than all the doctoring I ever did in my life."—26.

"I wouldn't mind summertime," said the Thoughtful Guy, "if it wasn't for the thoughtlessness of some people. They will all insist on walking on the shady side of the street, and thereby make it just as hot as the sunny side." And the thin man said he'd not feel that, too.—Cincinnati Commercial Tribune.

Young Father—Is it a boy or a girl? Doctor (a cyclist)—No, it's a—tandem—Chicago Times-Herald.

"Bliggins' wife doesn't insist on retaining possession of the latch key any more," suggested Mr. Meekton. "No," replied Mrs. Meekton, "she has found a better way to make sure that her husband stays home after dark." "What is it?" "She has taken the lamp off his bicycle."—Washington Star.

"How much insanity develops in hot weather!" "Yes; people lose their minds when their ice bills come in."—Chicago Record.

The Minister—Well, Bobby, how do you like your new brother? Bobby—Oh, pretty good. The Minister—I suppose, then, that you are glad he came here instead of going on to Mr. Green's? Bobby—Yes. But there's one thing bothers me. The Minister—What is it, Bobby? Bobby—Blamed if I can see how the doctor got him into that little bit of a satchel of his without breakin' every bone in his body.—Cleveland Leader.

Chambers—I understand Scribbler has left The Tooter. Does he enter a larger field? Butts—Yes; he's taken up farming.—Philadelphia North American.

Spats—What makes infants look so wise? Socrates—They are trying to make the women think they can understand the baby-talk which the whole neighborhood springs on them.—Pittsburg News.

In the Right Place.—The Summer Girl—Oh! I love nature so! The Farmer—Well, miss, things is jest as nacheral around here as they are anywhere.—Puck.

Harper—What do you regard as the first principle of the literary art? Scribbler—Learning how to live and buy postage stamps for fifteen or twenty years until you can get a manuscript accepted.—Somerville Journal.

Mother—Kleptomania is taking something you don't want. Johnnie—Humph! I must have had some of that when I was sick; but the doctor was to blame.—Adams Freeman.

"Blank him! I'd like to smash his face for him!" "What for? What has he done to you?" "Nothing. He thinks, though, that I am working against him. And I'm the best friend he's got.—Chicago Tribune.

Practical Father—I've given you a good college education; what more do you want? Son—You haven't yet supplied me with the means to live up to it.—Philadelphia North American.

"Wigsby, the politician, claims that he never forgets a face." "I only wish," said the man with the office-seeking look, "I only wish he was as good at remembering his promises."—Indianapolis Journal.

Fuddy—Really, now I suppose the average amateur fisherman is the prince of liars. Duddy—Perhaps so; but there's the man who's a smart lady in the house.—Boston Transcript.

Held Her Own.

"I have never seen your daughter," said the visitor, "but I have heard that she is very beautiful. Of course she gets her beauty from you!"

The hostess glanced reflectively in the mirror opposite. "No, I think I am still holding on to my own."—Pick-Me-Up.

A Splendid Premium.

A Great Jubilee Picture for Weekly Tribune Subscribers.

That admirable family and general newspaper and farmers' friend, The Winnipeg Weekly Tribune, is presenting its subscribers for the coming year with a beautiful jubilee souvenir in the shape of a magnificent group picture entitled "Queen Victoria and Her Premiers." This great picture embraces true to life photos of Her Majesty the Queen; Lord Salisbury, Premier of Great Britain; Sir Wilfred Laurier, Premier of Canada; together with pictures of the Premiers of every colony in the British empire. The collection is tastefully grouped, making a large handsome picture in several colors, convenient for framing. It will be prized not only as a splendid work of art, but will be worthy of transmission from generation to generation as a beautiful souvenir of the Jubilee year. This Jubilee picture will be entirely unlike anything heretofore produced, being prepared specially for The Weekly Tribune, and can only be obtained by subscribers to that paper.

A copy of this fine premium and The Weekly Tribune to Jan. 1, 1899, is sent to any address for $1. The Weekly Tribune already the largest paper published in Canada west of Lake Superior, and always in the van of progress will undergo several improvements during the coming year. Address all orders to The Tribune Publishing Co., Winnipeg.

The Farmers' Year.

Now that winter has set in citizens may expect a sharp advance in the price of farm produce. Vegetables of all kinds are scarce, and even now prices will probably prevail before the new year is ushered in. Hay will also command a high figure, owing to the supply being limited, and the consumers of wood will have to pay from 50c to 75c a cord more than they have for several season's past. In consequence of the large quantity of butter and eggs to the mining regions, the local supply of important staples will be comparatively small, and the price much higher than usual. This is certainly the farmers' year.

PROSTRATED, EXHAUSTED.

NO SLEEP—NO REST.

LL do not appreciate the words of John G. Saxe, who sang, "God bless the man who first invented sleep!" But appreciation is not wanting to those who have suffered as Mrs. White, of Mara Township Ont., who became so ill with nervous troubles that, to quote her brother, Mr. Donald McRae, a well known resident of that illustrious section of North Ontario: "My sister had not slept a night for over three months. She could not have stood this much longer, and it was only when death seemed imminent that South American Nervine became the good physician. After taking the first dose of the Nervine she slept all night, and gained in flesh until perfectly well, and has now no sign of nervousness." This is a wonderful medicine in the severest cases of nervousness, and the greatest flesh builder to be found anywhere in the world.—25.

Full information will shortly be in the hands of all agents of the Canadian Pacific Railway Company, the company now making enquiries to ascertain, before advertising the public, which will be the best route to go in by. ONE HONEST MAN.

To the publisher:

Please inform your readers that if written confidentially I will mail in a sealed envelope the plan pursued by which I was permanently restored to health and manly strength after years of suffering, nervous weakness, lost vigor, nocturnal discharges, and lack of development.

I have no scheme to extort money from any one. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but, thank heaven, I am now well, vigorous and sound, and anxious to make his certain means of cure known to all.

Unsolicited endorsements from my grateful friends who have been cured through my free advice:

Mr. Mulford: "I saw your notice in the paper some time ago, and wrote you about my case. After following your advice, which you so kindly gave me, I am very glad to say that I am now perfectly cured. I wish to thank you a thousand times for your kindness."

"Heaven grant you a long and prosperous life, is the wish of a cured friend."

"Judge of my surprise to receive a kind letter of so valuable advice, absolutely free."

"I is the first advertisement that I have answered that did not ask me to call at the express office and pay for medicine that I had not ordered."

"I am happy to say that you are truly an honest man, and deserve the endorsement of both pulpit and press."

In conclusion: I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness. Perfect secrecy assured. Address with stamp, Mr. Wm. T. Mulford, Agents' supplies, P.O. Box 59, St. Henri, Montreal, Que.

LOTS OF HIM.

One of a Numerous Tribe That We All Know and Recognize.

Call him Blowly because it indicates his characteristics and conceals his identity. Pepperton has a delightful summer home on the Canadian side and has Blowly come down to spend a few weeks with him, for it is the delight of Pepperton's soul to take the wind out of Blowly's sails.

O, yes; Blowly could swim like a duck, when bathing was proposed as one of the chief sources of pleasure. They had not gone ten feet into water when Pepperton had to rescue his guest and it took half an hour to resuscitate him.

When they came to talk of shooting, Blowly modestly declared that every shot he aimed at a pigeon with him. The first time he pulled the trigger the skin was peeled from the right side of his face and he had to give a lone fisherman $20 for peppering him with a load of bird shot.

Blowly declared that he had been an old Hudson Bay man and took out a rowboat for a "spell" and drifted down the river. All he spoiled during the day was when he ran into the seine of a fishing line, which wound around like a top and sank into the water. They threw him a life preserver at the next dock and he walked back to Pepperton looking like a drowned rat. But Blowly never lost self-confidence, for there was nothing proposed in which he did not excel.

Hearing of a friend three miles down the shore, Blowly concluded to ride down and see him, borrowing a horse with which to make the trip. The horse had been bought in the vicinity of Tara and promptly started in that direction despite all Blowly's persuasive powers. Ten miles on the road Blowly informed a couple of farmers to head him and the horse off, and again he walked back.

After he had fallen out of a cherry tree and been tossed through a hedge by a Canadian bull, Blowly received a dispatch which he preferred was a letter calling him home at once.—Detroit Free Press.
